Dear Business Owner:

The OakLeaf Yellow Jackets Athletic Program relies on community support to continuously upgrade its facilities and provide the best possible experience for the student athletes participating in after school activities. Only the minimal needs of our program are satisfied by the Clay County School System.

Only through the generosity of local businesses and parents, are we able to provide for the extra needs of our student athletes that result in quality teams. The funds raised through this sponsorship program are used to equip the players and meet running expenses of the Athletic Program such as uniforms, travel expenses, facility improvements and new equipment.

## **We need your HELP!!!**

We recognize that you must receive many requests for various worthwhile organizations and therefore we wish to offer you and your business the opportunity to give back to the community and its future leaders. Please take the time to look over the sponsor package and choose one that is right for you.
